HIGHLIGHTS

- 15+ years of real-world development experience.
- Full-stack delivery across frontend, backend, data, and deployment workflows.
- Production work in Laravel, PHP, Magento, Joomla, WordPress, React, Angular, Vue, Ionic, ASP.NET, and C#.

PROFILE

Senior Full-Stack Developer with 15+ years of experience building scalable web, mobile, and business applicationsâ from frontend interfaces to backend architecture and production deployment.

SELECTED EXPERIENCE

Senior Full-Stack Developer

Rush Hour Digital

Philippines / Remote | Drupal, Next.js, React, Payload CMS

Delivered CMS-backed web platforms and ongoing product work across Drupal, Next.js, Payload CMS, and multi-project frontend/backend systems.

- Built and maintained Drupal and Next.js client platforms, including content-driven websites, e-commerce flows, and API-backed frontend features.
- Worked across headless CMS integrations using Drupal APIs, Payload CMS, React, and TypeScript-based frontend workflows.

Full-Stack Developer

Blue Sky ROI

Philippines / Remote | WordPress, PHP, Laravel, React

Worked on performance-focused marketing websites, WordPress builds, landing pages, lead flows, and tracking integrations.

- Maintained WordPress-based marketing sites and implemented landing-page updates for lead-generation campaigns.
- Integrated Google Tag Manager, Ringba, Jornaya, and Twilio-backed lead workflows.

Magento 2 and Laravel Developer

Stikadoo

Surigao City, Philippines | Magento 2, Laravel, Tailwind, Alpine.js

Worked on Magento 2 store maintenance, feature delivery, and Laravel API and web application projects.

- Fixed bugs and added requested features for a Magento 2 store.
- Created Laravel backend APIs and TALL-stack web applications.

RECOGNITION

- Employee of the Month, Native Commerce
- 2013 Employee of the Year, Surigao Internet Marketing
- Visual Basic Programming, 1st Place during IT Days Celebration 2009

ADDITIONAL EXPERIENCE

Homebased Developer

Malibu California

Malibu, California, United States | ASP.NET, C#, MySQL, Microsoft SQL Server, GitHub

Built ASP.NET and C# applications from scratch for business operations.

- Created inventory, POS, accounting, lot management, and security systems.
- Worked with MySQL and Microsoft SQL Server-backed application data.

Homebased Developer

Native Commerce

United States | WordPress, Magento, Ionic, Bitbucket, SCRUM

Worked on WordPress and Magento features, site fixes, and Ionic mobile application support.

- Fixed live site issues and built custom features for WordPress and Magento.
- Helped create mobile applications for iOS and Android using Ionic.

Web Programmer

Surigao Internet Marketing

Surigao City, Philippines | Joomla, Magento, PHP, MySQL, Linux

Built complex Joomla, Magento, affiliate, and Linux-supported web systems with a small development team.

- Created Joomla components, modules, and plugins.
- Created Magento extensions and custom Joomla and Magento features.

SELECTED PLATFORMS

Lexibook

Drupal + Next.js commerce platform

Multilingual commerce delivery spanning CMS-managed content, product discovery, and frontend/backend integration.

Optism

Drupal + Next.js community platform

Headless CMS delivery across editorial publishing, expert content, and product ecosystem features.

NSW Law Reports

Drupal + Next.js legal publishing platform

Structured publishing work for subscription content, search-led discovery, and professional user flows.

Level 22 Chambers

Drupal + Next.js chambers website

Profile-led content modeling and frontend delivery for barrister resources, navigation, and editorial sections.

ENGINEERING PRACTICES

- Production maintenance for live Joomla, Magento, WordPress, Laravel, and .NET systems.
- Laravel backend APIs and business workflows for billing, inventory, booking, and operations.
- AI-assisted delivery using GitHub Copilot, Codex, and Claude with direct engineering oversight.
- Custom Joomla components, modules, plugins, Magento extensions, and integrations built around real client needs.
